“ *This is so hard to say I am sorry for the loss of Bertha. She taught me so much about farm life and how hard you had to work not only at farm life but at life in general. She was a wonderful friend and I will miss her deeply. My prayers and love go with all of you.*

“ *Bertha and I shared many happy days picking peas (in the heat and mosquitos) and then Shelling them on the car port watching the cars go by. We could have solved all the worlds problems if anyone would have asked us. We also cooked many bereivement dinners at the church, we laughed together, cried together but most of all prayed together for our families. our church families and the lost. she will be missed greatly by all who knew and loved her.*
