“ So sorry for your loss. I worked with Dan at the U.S. Army Corps of Engineers. I worked with him at Lock 1 for a little while before moving back to Lock 2 and then Montgomery Point. Prayers for you all.

“ Dear family, my days of knowing Dan were from DeWitt High School. Dan was my best friend. We rounded the DeWitt square many a time on weekend nights, either in his car or my parents' car. I also recall the FBI interviewing me in my home to question me about Dan who was considering the FBI for a career. However, the Vietnam War caught up with us in our Senior year and he received a low draft number (under 100, perhaps around 50) and joined the Navy to avoid combat on the ground if drafted to the army. Thus, he did not go with the FBI option. I still considered Dan a friend though separated by many years.

Now, I trust you will know God's peace and presence in this time of loss. And I give thanks for having known him and having had him as a friend.
