“ Dink introduced me to bass fishing. He chased for months to go with him until I gave in and agreed to go. But I told him I had no bass equipment an he said no proble he would furnish everything I needed. So we go the first time he even said I'll paddle (little did I know at the time there were alternative reasons for his kindness) He had told me that if I didn't like it after we went he wouldn't ask me again. Well I had never in my life caught that many fish in one day. We filled a 30 at ice chest and have no idea how many we released. Over the next few months he would give me baits with mo hooks (always a accident) I realized that paddling up front gave him a chance to spot the swirls and stick ups first so he got first chance and I didn't realize what was happening. When I finally caught on to what was happening we had been fishing for approximately a yr. Well we fished for over 30 yrs together and had more laughs and great times together. Yes he taught to BASS FISH BUT AT THE END I REALLY THINK HE JUST USED ME TO HOLD THE BACKEND OF THE BOAT DOWN.

“ Larry and I knew Dink from when he was in school. When we were kids our big thing to do was to cruise the court square! Larry and Dink had a few rides cruising together. I was friends when he worked at the same rice mill that I worked at! Then through the years later, our kids married and we shared grandchildren. He was a good friend to us both! Prayers and love to all the Denton family.He will be missed by our family!
