“ Gayle and I will sorely miss Mike. We had a few chances to catch up in last few months and visit when we were in town last year. We talked about the fun times we had in high school and contemplated how to get him to Texas for his goddaughter's wedding; he so wanted to be able to be there.

It was fun reminiscing about old times but it was so hard hearing his pain and struggle with his back and then the cancer. I pray his relief is complete and he is up there driving around the square with Liz like it was 1976 - no pain and feeling good!

We love you Mike and look forward to seeing you when it's our turn!
